Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Thursday 01 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry for many Thursday. More showers developing Friday.

Today:
Rather cloudy in east England with some rain and drizzle, mainly Lincolnshire and East Anglia. Some heavy showers developing for south Wales and southern England, particularly around Dorset and Hampshire. Cool in cloudier east otherwise feeling warm in sunshine.

Tonight:
Some clear spells but tending to cloud over with some rain developing later in the night for east England, perhaps heavy in places. Milder than Wednesday night for many.

Friday:
A more widely showery day, particularly for central and east England and south Scotland. Southwest parts and far north mostly dry. Warmer than recent days in east England.

Outlook for Saturday to Monday:
Showers will affect many places, some heavy with hail and thunder. Best of the dry weather in the northwest. Feeling humid with light or moderate winds.
